Experience :

SaidLife Company : Flutter Developer | [2021 - 2022]

- Developed mobile applications with Flutter based on UI/UX designs in Adobe XD and Figma..
- Integrated backend services with mobile applications, enhancing app functionality and performance.
- Utilized Dart language for app logic and collaborated with teams to create responsive and animated interfaces.

AxtroSoft Company : Flutter Developer | [2022 - 2023]

- Implemented Firebase services, including push notifications, background services, and dynamic linking, enhancing user engagement.
- Applied GetX state management for efficient app state handling and navigation.

SDNone Company : Flutter Developer | [2023 - Now]

- Integrated Pusher and Socket.IO for real-time communication features in mobile apps.
- Used BLoC state management for maintaining application state, improving code structure and reusability.
- Deployed apps on Google Play, Apple Store, Huawei Store, and Amazon Store.
- Worked with Google Maps and Mapbox for location-based services.
- Integrated local storage solutions using Shared Preferences, SQLite, Hive, and GetStorage.

Projects :
